

# Syed Ali

## Junior Software Developer

### CONTACT DETAILS

- 07789623897
- yaqoob.sya1410@hotmail.com
- London, willing to relocate
- <https://syed-y.ali.com/>

### CORE SKILLS

- HTML
- CSS
- JavaScript
- React
- Tailwind
- Python
- Java
- MySQL

### PROFESSIONAL PROFILE

Motivated and resilient team player with a strong aptitude for effective communication and thrive in high-pressure situations. Leveraging previous work experiences, I've honed skills in teamwork, maintaining positivity under stress, and meticulous attention to detail.

Recently completed a comprehensive Digital Skills Bootcamp at JustIT, enhancing proficiency in HTML, CSS, JavaScript, Python, Java, React, and MySQL. Eager to channel this diverse skill set into a career in software development, I'm enthusiastic about tackling challenges head-on to continually grow and excel in this dynamic field.

### EDUCATION

- Biochemistry 2nd BSc (Hons)** | University of Surrey | Oct 2019 - Jul 2022
- A-Levels** | Maths: B, Biology: B, Chemistry: C
- GCSE** | Math: A\*, Physics: A\*, Computing: C
- Software Development Bootcamp** | JustIT | Aug 2023 - Nov 2023 |

Projects: (All projects can be found on github and on portfolio)

- As a passionate football fan, I created a live-score football webpage that has a API integrated to fetch live time and score updates and league table updates (Still in progress)
- Created a interactive e-commerce cart using HTML and CSS but mainly JavaScript
- A weather app is a user-friendly web application that provides real-time weather information to users based on the location they input. With the use of HTML, CSS, and JavaScript in integration with the OpenWeatherMap API to deliver accurate and up-to-date weather forecasts.
